aflex 400 lv
Revision A**

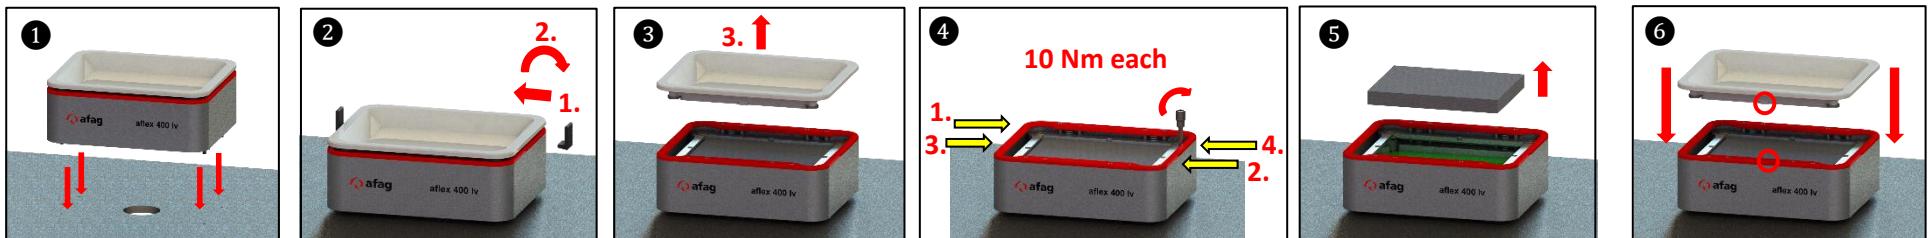

Quick Guide

1. Preparation

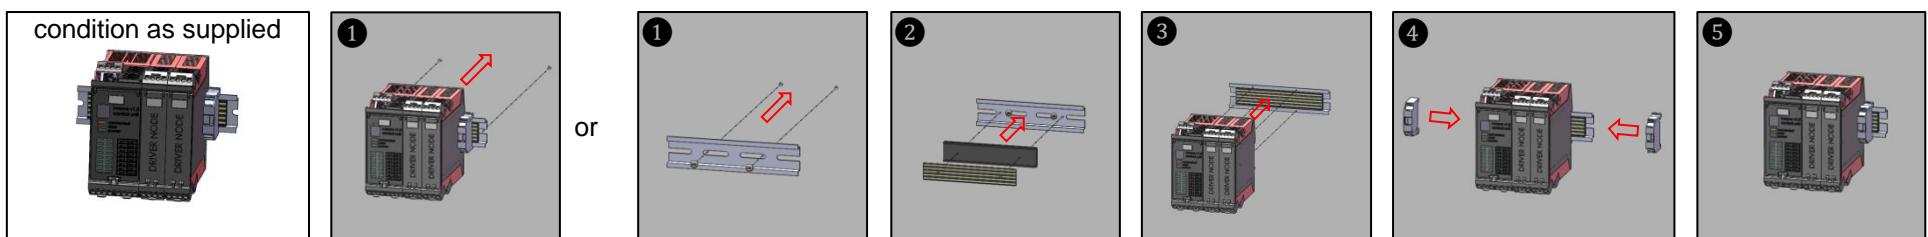

Quick Guide

2. Mechanical Assembling

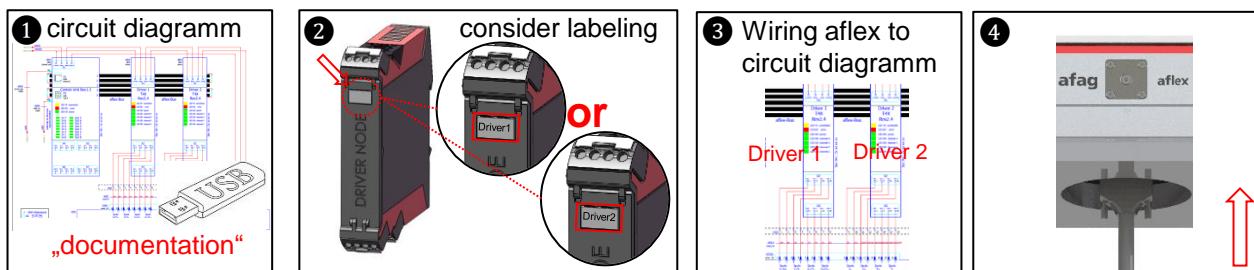

Quick Guide

3. Control Assembling

Quick Guide

4. Electrical Wiring

Quick Guide

5. Software

1 Software location

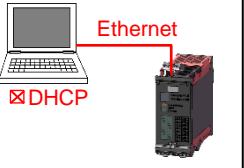

aflux configurations
afluxConfigurator_1_57
ControlUnit backup
documentation
FirmwareFiles
production test document.pdf

2 Install software

3 Connect ControlUnit

Ethernet
DHCP

4 start software

5 connect

6

7 manual mode & general release

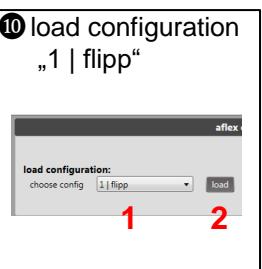

8 Need Help? use these Buttons

9

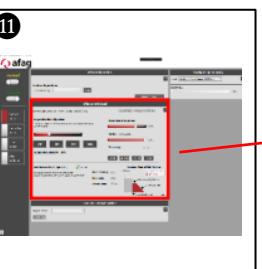

10 load configuration „1 | flipp“

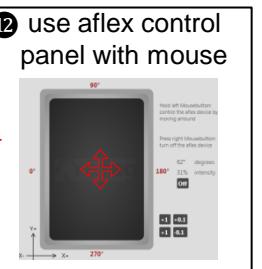

1 2

11

12 use aflux control panel with mouse

13 Test sample parts on aflux

14 read user manual

aflux configurations
afluxConfigurator_1_57
ControlUnit backup
documentation
FirmwareFiles
production test document.pdf

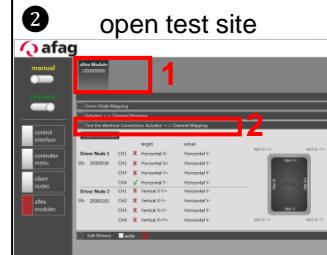

Quick Guide

6. Test electrical connection

1 Menu aflux modules

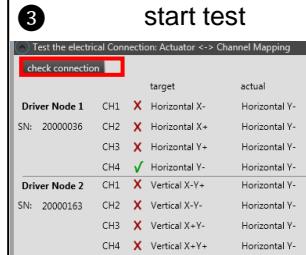

2 open test site

1
2

3 start test

	target	actual
Driver Node 1	CH1 X Horizontal X- CH2 X Horizontal X+ CH3 X Horizontal Y- CH4 ✓ Horizontal Y+	Horizontal Y- Horizontal Y+ Horizontal Y- Horizontal Y+
Driver Node 2	CH1 X Vertical X+ CH2 X Vertical X-Y CH3 X Vertical Y- CH4 X Vertical X+Y	Horizontal Y- Horizontal Y- Horizontal Y- Horizontal Y-

4 successfull result
